

ENERGY

Firon Law Firm is one of Israel's leading law firms in the energy sector. The firm represents some of the largest Israeli and foreign companies in the sector, and over the years advised on breakthrough projects worth billions of Dollars in Israel and around the world.

The firm's lawyers have expertise in complex, capital-intensive projects involving corporations, foreign investors, government agencies, and leading-edge technologies. The firm's energy practice has received high recognition by the foremost Israeli and international legal rating guides, which consistently rank it as a leading firm in this field.

The firm supports a broad spectrum of energy projects in such areas as water, gas, oil, and renewable energy, including solar and wind energy, server farms, and storage of energy. The firm's lawyers specialize in all aspects of projects, including public tenders, project financing, drafting infrastructure agreements between the project's parties, and settling disputes that arise during the work.

The firm possesses special expertise in preparing and conducting negotiations for engineering, procurement, and construction (EPC) agreements, operating and maintenance (O&M) agreements, and power purchasing agreements (PPA).

The firm's team has significant experience in supporting international energy projects. In recent years, the firm's lawyers have represented Israeli and international companies in their operations worldwide, including in Asia, Europe, and South America.

The ability to lead energy projects throughout the world is unique in Israel to Firon Law Firm and is the result of the firm's international expertise and familiarity with the complexities of the international energy sector.

'They are highly motivated, ambitious in finding creative solutions, support each other and are pioneers in the market.'
